## **CRIMINAL BACKGROUND CHECKS**

Affiliating clinical agencies with which the College has contracted to provide clinical experiences for nursing students require students to submit a criminal background check and drug screening before participating in clinical experiences at the site. The background checks and drug screening results may determine if a student is eligible to enter clinical agencies. Students are responsible for the cost of the background check and drug screen.

1. Applicants should be aware that a student must be able to enter and/or remain in all clinical agencies to progress within the program. Therefore, if a clinical site denies a student placement in their facility, the student would be unable to complete the required clinical component of the course. As a result, the student will be withdrawn from all NUR courses and will not be allowed to progress in the program.
2. Currently, the nursing program uses an online vendor for background checks and drug screening. Information on completing the process is included with the letter of acceptance to the program.
3. The background checks and drug screening must be completed by the specified date before starting the semester in which the student enrolls. Failure to complete the process as specified will jeopardize enrollment in the program.
4. Any criminal charge or conviction that occurs subsequently to the criminal background check must be communicated in writing to the Director of Counseling Services within five days after such charge or conviction has been entered by the court, notwithstanding the pendency of any appeal (excluding minor traffic-related violations) before the next scheduled clinical day if clinical occurs before the five days noted above. Failure to report charges or convictions will result in a violation of academic integrity and may result in dismissal from the program. In addition, a new criminal background check and/or drug screen will be requested at this time at the student's expense.

Applicants to the nursing program should be aware that if they have pled guilty to or have been convicted of a felony or misdemeanor (other than a minor traffic violation), the NC Board of Nursing may restrict or deny licensure. Therefore, the NC Board of Nursing requires criminal history checks for each person applying to practice nursing in North Carolina. Applicants will be charged a fee to offset the background check cost.

## **Cardiopulmonary Resuscitation (CPR)**

Nursing students must obtain current American Heart Association (AHA) – Basic Life Support (BLS) Provider certification before the first day of class. Must stay current while enrolled in nursing classes. Note: AHA BLS certification must have included a "hands-on" skills demonstration component to be accepted. Students are required to show proof of current certification.

## **READMISSION POLICY**

Because of the organization of the learning experiences in the Nursing Programs, the course sequence may be offered only once per year; therefore, students requesting readmission to the nursing program will not be able to re-enter until the course is offered again. In addition to the *WCC Catalog and Student Handbook* "Readmission Policy," the student is subject to the following:

1. Complete the admission process and submit an updated Student Medical History and Physical Exam Form.
2. Follow a prescribed knowledge and skill development program based upon identified deficiencies as required by faculty and the Nursing Department Chair.
3. Students that withdraw or do not progress from the first semester of the nursing program must reapply as a new student in a subsequent academic year.
4. Students that withdraw or do not progress from the second semester or any subsequent semester must reapply in a subsequent academic year for readmission into the semester that was not successfully completed. Returning students will be required to successfully audit the preceding NUR course(s) in which they are requesting readmission. Refer to the *WCC Nursing Student Manual* "Auditing Policy."
5. An audit contract will be developed, and specifics of the contract must be satisfactorily met before readmission into the nursing program.
6. Advanced Standing Alternate for LPN students must maintain an unencumbered license to practice as an LPN in the state of NC while enrolled in the ADN program.
7. Admission is a competitive process based on total point count, successful completion of audit requirements, provision of documentation of required immunizations and health forms, current certification in American Heart Association Basic Life Support CPR, and space availability.
8. Because readmission is based upon space availability, the selection criteria for the limited admissions process (point system) for the respective program will be utilized to rank applicants in order of admission priority.
9. Readmission will be limited to a maximum of one time per nursing program. Auditing a nursing course does not constitute admission into the nursing program.

## TRANSFER CREDIT

Educational work taken at an accredited institution in which a grade of "C" or better was earned may be accepted in transfer. Credits for transfer courses are not used in the computation of the student's grade point average in the student's program at Wayne Community College. Questions concerning transfer credit should be directed to the Office of Admissions and Records.

Students requesting transfer credit must meet all minimum admission criteria for the respective nursing program as outlined in the application for admission and must have completed all previous general education pre/corequisites required for the course they are requesting admission before admission. Requests for transfer credit for NUR courses are submitted to the Nursing Department Chair. Course descriptions and syllabi describing course content and credit hours of the applicant's coursework are compared with that of the WCC Curriculum. Credit is approved at the discretion of the Nursing Department Chair. Students with approved transfer credits may be required to audit previous NUR courses successfully and demonstrate competency in preceding course learning outcomes before enrolling in the nursing program. (Refer to *WCC Nursing Student Manual "Auditing Policy"*) An official transcript of work completed at other colleges and/or universities must be sent to the Office of Admissions & Records before consideration of transfer credit. Course credit, including transfer credit, must meet requirements as outlined in the Graduation Requirements policy in the *WCC Catalog and Student Handbook* for a student to be eligible for graduation from any nursing program. Students requesting transfer into a nursing program must complete the admission process outlined in the program's admission packet. Admission into a nursing program is limited and is a competitive process. Decisions for admission are based on total point count, provision of documentation of required immunizations and health forms, completion of criminal background checks and drug screening, current certification in American Heart Association Basic Life Support CPR, and space availability.

## AUDITING POLICY

A student seeking readmission or transfer into the Nursing Program will be required to audit the NUR course(s), which precede the point of entry or re-entry. The student must have the approval of the Department Chair to audit any NUR course. Permission to audit is based on space availability. The auditing student must register for the course and pay the regular tuition rate. The auditing student must abide by all College and Department policies and is subject to all requirements as stated in the course syllabus. Auditing students are not permitted to attend clinical components of a NUR course. The Nursing Department Chair designs individual Audit Contracts, which identify the specific student responsibilities required to receive a grade of "AU." Audit contracts are designed to promote the success of the student. To be admitted or readmitted into the nursing program, the auditing student must successfully complete the course as per requirements in the audit contract and course syllabus. Successfully auditing a course is defined as class and lab attendance according to the Nursing Student Manual Attendance Policy, achieving a final grade of at least a "C," and completing all required components of the course. Auditing a NUR course does not guarantee admission into the nursing program. Refer also to the Auditing Policy in the *WCC Catalog and Student Handbook*.

## **Student Success and Retention**

Student retention and success are a priority at Wayne Community College. Obstacles to success may include the academic rigor of the program, extracurricular demands, or dissatisfaction with your choice of this career path. Job shadowing should be strongly considered so that you are keenly aware of the professional responsibilities and duties associated with your career choice.

Extracurricular demands such as full-time work schedules may also need to be reduced or eliminated to allow the necessary study time to succeed. A sound support system is also crucial if you are involved in other extracurricular demands, such as caring for children or elders.

## **WAYNE COMMUNITY COLLEGE INFECTIOUS DISEASE POLICY FOR STUDENTS**

Wayne Community College is committed to assuring that all necessary training and precautions are taken with regard to infectious diseases. The Biohazard Exposure Control Plan and the Pandemic Preparedness Plan of Wayne Community College reflect our efforts to ensure all employees and students' good health and safety. The College adopts this communicable disease policy for students to control infectious diseases and the threat of pandemics on campus based upon established rules and regulations of the NC. Division of Health Services. Employees and employees of contractors or contracted services infected with an infectious disease have the responsibility of reporting this fact to the Director of Human Resources. Students infected with an infectious disease are responsible for reporting this fact to the Associate Vice President of Academic and Student Services or the Vice President of Continuing Education, as appropriate.

Communicable disease shall include but is not limited to Chickenpox, Infectious Mononucleosis, Conjunctivitis, Hepatitis A, B & D, Acquired Immune Deficiency Syndrome (AIDS), Aids-related complex (ARC), positive HIV antibody status, Influenza, Measles, Meningitis, Tuberculosis, Whooping Cough, and sexually transmitted diseases. (NCGS 130A)

Persons infected with an infectious disease are expected to seek expert medical advice and are encouraged to advise local health authorities. In addition, local health authorities should counsel these persons about measures that can be taken to prevent the spread of infection and protect their own health.

Persons who know or have a reasonable basis for believing that they are infected with a communicable disease have an ethical and legal obligation to behave in accordance with such knowledge to protect themselves and others. Therefore, medical information relating to the infectious disease of a student or employee will be disclosed to responsible college officials only on a strictly limited need-to-know basis. No person, group, agency, insurer, employer, or institution should be provided any medical information without the prior specific written consent of a student unless required by state and/or federal law. Furthermore, all medical information relating to the infectious diseases of students and employees will be kept confidential according to state and federal law, including the Family Education Rights and Privacy Act.

If a student reports a communicable disease condition, the student may be excluded from the institution until an appropriate evaluation of the student's medical condition can be made. The evaluation may be made by a physician or a health department official, and testing may be required if appropriate. In addition, students in any Allied Health program may have additional requirements, as specified in each program's student handbook; therefore, these students should report all suspected communicable diseases.

The final determination of the student's ability to remain in school will be made by the Vice President or Associate Vice President based on professional medical evaluation results and recommendations. If a student is found to have an infectious disease, then the attendance of the student on campus or at any College activity will be prohibited until a satisfactory letter or certificate is obtained from one or more licensed physicians or public health officials stating that the student is not a health risk to employees and other students at the College.

The College's Biohazard Control Plan defines guidelines that will be followed in accidental exposure to bodily fluids or biohazards. Any such exposure should be reported immediately to the responsible faculty or staff person associated with the WCC activity involving such exposure and to the Student Activities Coordinator, and an incident report must be completed.

## Health and Immunization Requirements

Health and immunization requirements are based upon contractual agreements between the Wayne Community College Nursing Department and clinical agencies that provide clinical learning environments for students. Students must comply with all health/immunization requirements to be eligible to participate in clinical opportunities at each facility's discretion. If a student does not meet and maintain health/immunization requirements for a specific agency, they are not eligible to participate in clinical in that facility. If the Nursing Department Chair determines that a student cannot satisfactorily meet the clinical requirements of the nursing program, the student will not be allowed to progress in the nursing program and will be dismissed.

Students/applicants must provide documentation indicating compliance for all required screening/immunizations. Compliance with immunization and health requirements must be maintained while in the nursing program. Students cannot attend clinical if health/immunization requirements are unmet.

Students must meet all immunization requirements to be eligible to attend clinical. Requirements are adapted from the Eastern North Carolina Consortium for Clinical Education & Practice (CCEP) PASSPORT Student Annual Orientation Checklist. (Latest revision 9/22/21) and specific requirements outlined in each clinical facility's contract.

Immunizations/health screening required by clinical agencies include:

Tuberculosis screening

Measles, Mumps, and Rubella Immunity or MMR Vaccines

Varicella Immunity

Tetanus/Diphtheria (Tdap)

Influenza (annual)

COVID-19

\*Note: immunization and health screening requirements are subject to change based on clinical agency requirements. Therefore, the above requirements may not be all-inclusive.
